

CNSI and Lockheed Martin Team to Develop 2010 Census Information Processing System

ROCKVILLE, MD – CNSI, a fast growing, innovative provider of IT business solutions for government and commercial enterprises, announced the U.S. Bureau of Census awarded a contract to a team led by Lockheed Martin to develop and operate an information processing system for the nation's 2010 Census. Under this contract, CNSI repeats the role it conducted during the 2000 Decennial Census. Under the six-year contract valued at approximately \$500 million, the team will develop and deploy the Decennial Response Integration System (DRIS) for the U.S. Bureau of Census.

ROCKVILLE, MD – CNSI, a fast growing, innovative provider of IT business solutions for government and commercial enterprises, announced the U.S. Bureau of Census awarded a contract to a team led by Lockheed Martin to develop and operate an information processing system for the nation's 2010 Census. Under this contract, CNSI repeats the role it conducted during the 2000 Decennial Census. Under the six-year contract valued at approximately \$500 million, the team will develop and deploy the Decennial Response Integration System (DRIS) for the U.S. Bureau of Census. The team includes Cardinal Technologies Inc., Bethesda, Md.; Computer Sciences Corporation, El Segundo, Calif.; Evolver Inc., Reston, Va.; IBM, Bethesda, Md.; M?tier Ltd., Washington, DC; Nortel PEC Solutions, Fairfax, Va.; and Pearson Government Solutions, Arlington, Va. CNSI is a second tier subcontractor to Evolver, Inc. CNSI will assist in installing systems at the three main 2010 Census processing centers, supporting the systems during the Decennial Census providing network support, helpdesk support and break/fix support, and uninstalling the systems and shipping them to specified locations. "Data gathered in

the Decennial Census plays an important role helping the government determine political representation, helping businesses make strategic decisions, and helping citizens learn more about themselves and their families, " Said CNSI President and CEO B. Chatterjee. "CNSI is proud to reprise the role it played in the 2000 Census—the most accurate and sophisticated census in our nation's history."

About CNSI

Founded in April 1994, CNSI is a premier provider of IT business solutions for government and commercial enterprises. Based in Rockville, Md., CNSI delivers technology and resource expertise that improve the efficiency and productivity of IT systems. Focused on supporting clients that ensure the safety, health, and efficiency of the nation, CNSI serves customers such as the Department of Homeland Security, Federal Aviation Administration, Department of Energy, and several state Medicaid agencies. Over the last 10 years, CNSI has earned top industry honors and regular inclusion in the Inc. 500, VAR Business 500, and the Techway Fast 50 lists for consistently high revenue growth.
