CNSI Recognized by NOVA Chamber of Commerce for Exceptional Business Leadership & CSR Efforts

Rockville, MD – June 13, 2018 – CNSI, one of the world's leading business solutions providers with vast experience developing and delivering innovative information health care management technology solutions, today announced it was selected as a finalist for the Northern Virginia (NOVA) Chamber of Commerce Outstanding Corporate Citizen Award in the Large Business Category. These awards honor companies for above-and-beyond business leadership and corporate social responsibility.

CNSI was recognized as a finalist at the awards ceremony on June 13th, 2018 at the Ritz Carlton Tysons Corner in McLean, Virginia. An audience of more than 600 leaders including top senior executives, politicians, business professionals, entrepreneurs, and influentials were in attendance.

"As a health IT leader, CNSI has earned a reputation for developing innovative technologies that improve the lives of millions of Americans. But we also want to be known for how we conduct our business, treat our employees, and give back to the communities that support our organization," said Adnan Ahmed, co-president of CNSI. "CNSI's CSR program, iCare, was designed as a way to show our commitment to making the financial, social, and volunteer investments in efforts that help transform the lives of those most in need."

The finalists for the Outstanding Corporate Citizen of the Year Award for Large Businesses honored companies of more than 500 employees in the DC Metro region that have made outstanding contributions during the past year to employees and the community. CNSI was celebrated as a company that has

been a longtime advocate for the community, particularly for its partnerships with local charities including the Montgomery County Coalition for Homeless, Manna Food Center, Capital Area Food Bank, MdBio Foundation, National Institutes of Health Children's Inn, and Stepping Stones Shelter. Over the past year, CNSI provided more than 1,000,000 lbs. of food to more than 3,000 residents, and contributed 700 volunteer hours to combat hunger in the community.

"The success that has come from iCare can be attributed to one thing: our employees. By allowing our employees to drive where we invest our time and resources in the community, we've been able to increase engagement and improve overall impact." said Ahmed. "We are honored to be recognized by the NOVA Chamber of Commerce for our commitment to bring about positive change in the community, and thank our employees for their continued commitment to making the world a better place."
