

CNSI's CEO B. Chatterjee Shares Government Contracting Predictions for 2013

The new year brings big changes for the Federal IT industry, and WashingtonExec is back with its Government Contracting Industry Outlook Series.

We are giving local executives the opportunity to share their thoughts on where they see our industry headed this year and beyond. Leaders were asked a series of questions focused on cloud computing, healthcare IT, defense, mobility, and more.

The new year brings big changes for the Federal IT industry, and WashingtonExec is back with its Government Contracting Industry Outlook Series.

We are giving local executives the opportunity to share their thoughts on where they see our industry headed this year and beyond. Leaders were asked a series of questions focused on cloud computing, healthcare IT, defense, mobility, and more.

B. Chatterjee, co-founder and CEO of [CNSI](#), spoke with us about his insights into 2012 [last year](#). This year, he's back with his predictions for 2013. [Read Full Article](#)
