

Goodbye 2016! Happy 2017!

The New Year is almost upon us. Television shows, news outlets, and social media are taking to the air waves to either look back at [the best \(and worst\) of 2016](#) or to share tips on [following through](#) on those [New Year's resolutions—like a boss](#).

Here at CNSI, we are following the year-end trend. We took pause this week to reflect back and thank our employees for all we achieved in 2016, including...

- * [Launching evoBrix™](#), the [Next Generation Modular Medicaid Platform](#)
- * Receiving the [NASCIO Award](#) for [Cross-Boundary Collaboration and Partnership](#)
- * Developing the Nation's First [Vital Records Mobile App](#)
- * Becoming a [G2X Exchange Finalist](#) in the Federal Health IT Challenge
- * Receiving two [Alliance for Workplace Excellence](#) Awards

But innovation never takes a break. CNSI is already looking forward and putting 2017 into three words—[Collaboration](#), [Modernization](#) and [Adaptability](#). These are the terms that are going to drive our business forward as we continue to build cross-state partnerships, upgrade legacy systems and address the [changing landscape of Health IT](#).

So goodbye 2016. Thank you for all the memories and we look forward to all that awaits in 2017!

WELCOME TO THE NEW YEAR!

2017
